POSTAGE PAYMENT OPTIONS

Payment for postage is handled through a separate account as it is not a fixed monthly cost and is based on usage. Vendor ID for postage is 0000001485 Pitney Bowes Inc.

1. Reserve Account

A Reserve Account is a deposit account used to fund postage on your Pitney Bowes meter. Funds are held in an FDIC-insured account at The Pitney Bowes Bank, Inc., and earn interest in the form of postage credits based on the average daily balance. Payments to the Reserve account should be handled via a check request form and must include your **Postage by Phone Account Number** to ensure payment is applied to your account. For instructions on capturing your account number on the payment check please see below on Payment Processing. **It is important that you manage your account balance via www.pb.com/myaccount and replenish funds in a timely manner to guarantee the availability of funds for postage.**

2. Purchase Power Account

Purchase Power is a line of credit set up for the purchase of postage and is handled similar to a credit card, as such, it incurs finance charges and late fees if payments are not received by Pitney Bowes within 20 days of the initial charge being made. The university does not recommend this option as it will incur high finance fees unnecessarily.

Deferred Payment Terms for Purchase Power Accounts. (a) By using the Purchase Power, you agree that whenever there is an unpaid balance outstanding on the Account which is not paid in full by the due date shown on your billing statement, the Bank will charge you, and you will pay, interest on the unpaid balance of the Account from time to time, for each day from the date the transaction is posted to the Account until the date the unpaid balance is paid in full, at a variable rate equal to the Annual Percentage Rate applicable to the Account from time to time. (b) (i) The Annual Percentage Rate applicable to the Account will be: the greater of (a) **22%** and (b) the sum of the highest "Prime Rate" published in the "Money Rates" section of *The Wall Street Journal* on the last business day of the month and the margin set forth below (the sum of the margin and the Prime Rate is herein called the "Floating Rate"). (ii) The Annual Percentage Rate will be adjusted on a monthly basis based on any fluctuation in the Floating Rate, if applicable. (iii) Any change in the Annual Percentage Rate based on the calculation described in this section will become effective on the first day of your next billing cycle. (iv) The margin which will be added to the Prime Rate to determine the Floating Rate will be **14.75%** (using the Prime Rate in effect as of March 31, 2013, the daily periodic rate would be **.049315%** and the corresponding annual percentage rate would be **18.00%**). (v) The Account balance that is subject to a finance charge each day will include (a) outstanding balances, minus any payments and credits received by the Bank on the Account that day, and (b) unpaid interest, fees, and other charges on the Account. (vi) The Bank will charge a minimum finance charge of \$1.00 in any billing cycle if the finance charge as calculated above is less than \$1.00. (vii) Each payment that you make will be applied to reduce the outstanding balance of the Account and replenish your available credit line. (viii) The Bank may refuse to extend further credit if the amount of a requested charge plus your existing balance exceeds your credit limit.

It is highly recommended that Departments / Schools do not utilize Purchase Power, instead, Departments / School should utilize the Reserve Account (prepaid postage). Purchase Power account numbers begins with 8000.
